Commissioner for Patents

Applicants' amendment filed September 22, 2003, has been entered. The specification has been amended. Claims 8-10, 16, 28 and 31-34 have been amended. Claims 30, 32, 35 are canceled. Claim 36 has been added. Claims 8-16, 28, 31, 33, 34 and 36 are pending.

The filing of the new sequence listing is noted, however upon review of the specification sequences in the specification and figures have not been identified by specific SEQ ID NOs. For example neither the figure or the description of the figure in the specification indicates the sequences set forth in the figure. As indicated in the prior office action, because the amendment does not put the application in condition of sequence compliance, the response is considered incomplete. Clearly identifying each of the sequences listed in the application by specific SEQ ID NOs would put the application in sequence compliance.
